

SPRINTER A2-402 DTF

40cm Textile Digital Heat Transfer Printer

DTF printer printing without plate making requirements, as soon as printing, hot stamping without bur, no exposure, soft handle, no fading, strong color fastness, strong tensile strength, no cracking, no requirements on cloth, simple operation process.

Features

5Colors & White ink circulation

White ink circulates continuously between the cartridge and printhead, reducing clogging and ensuring consistent printing

Upgraded Pinch Roller

Soft wheel pinch roller structure brings more stable PET feeding.

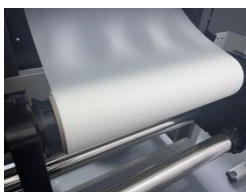

Powder Shaking control

Powder control reduces hot melt powder use and ensures close adhesion, preventing white leaks in heat transfer.

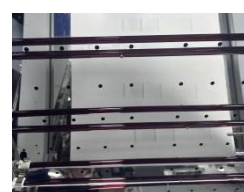

Printhead maintenance system

The machine has a control board with printhead moisturizing and auto-cleaning to prevent clogging, maintain printhead condition, and ensure it's ready for use anytime.

Tension bar media feeding system

The tension bar film feeding system makes feeding more accurate and stable.

Infrared drying system

The efficient heating system ensures hot-melt powder is properly heated, dried, and transferred to the t-shirt as a smooth ink layer.
